

## TAVISTOCK RURAL DISTRICT

# ANNUAL REPORT ON THE HEALTH OF THE DISTRICT FOR THE YEAR 1968

---

*Report Presented by:*

The Medical Officer of Health and the Chief Public Health Inspector

AMENDMENT

to

SECTION 'C'

SEWERAGE AND SEWAGE DISPOSAL

Page 14 - Final paragraph commencing:

"There have been several obstructions ...."

should be substituted by the following:-

There have been several obstructions to the Council's sewers throughout the district, all of which have been cleared within a few hours of notification, some instances necessitating overtime. In this context it is felt that if the Department was notified earlier in the working day of the majority of cases of choked sewers, the problem of overtime working would not arise and in view of the introduction of British Standard Time, overtime working during the winter months can be a very hazardous operation. I feel that I must draw attention yet again to the large articles that are being deposited in the sewers, particularly non-rotting items, e.g. Polythene etc., which are the main cause of obstructions, and would appeal for the general public to take much greater care regarding drainage arrangements.

# **TAVISTOCK RURAL DISTRICT COUNCIL ANNUAL REPORT ON THE HEALTH OF THE AREA DURING 1968**

## **PREFACE**

**MR. CHAIRMAN AND COUNCILLORS,**

I present herewith the Annual Report on the Health of the Area during 1968 drawn up on the lines suggested in Ministry of Health Circular 1/69 dated January, 1969. Included in the Report is the Report of your Chief Public Health Inspector.

## **STATISTICS**

The Registrar General has estimated that the population increased by 590 persons to a total of 23,190 people. Births exceeded deaths by 8 persons so that the remainder of the increase in population was due to 582 people moving into the district. The number of inhabited houses increased by 25 to a total of 7,500 which means that an average of just over 3 persons lived in each house.

Both the standardised Birth and Death Rates showed a slight increase since 1967. The Birth Rate is higher than the National Average and the Death Rate equals the National Average.

As usual most deaths were due to diseases of the heart and circulation (58% of total) and Cancer caused approximately 18% of the total deaths. There were 9 accidental causes of death, only 3 being road accidents.

## **ENVIRONMENTAL HEALTH**

The Surveyor again draws attention to the fact that sewer blockages occurred due to people flushing non rotting items such as polythene articles down the lavatory, and he appeals for public co-operation to avoid this hazard which wastes ratepayers money.

Further improvement in the refuse collection and disposal services are mentioned, and plans were being drawn up for more public conveniences.

The Public Health Inspectors made a total of 8,015 routine visits in connection with their duties in addition to maintenance work under the various sections.

New housing makes good progress and applications increased for Standard Grants to improve older properties. Progress was also achieved in dealing with unfit dwellings.

Regular routine inspections of food premises took place and at the slaughterhouses 17,376 animals were inspected, representing 100% inspection.

## INFECTIONS COMMON TO FARM ANIMALS AND MAN

Elsewhere in this Report is included a paragraph dealing with infections on farms. In the four large rural districts covered by your Medical Officer of Health (Kingsbridge, Plympton, Tavistock and Totnes) a marked increase has been noted in the number of infections on farms common to man and animals. Those in particular which occurred in 1968 were:— Anthrax, Salmonella Infections and Brucellosis. After each incident was reported to the Public Health Department the farmer was advised as to what to do to minimise the risk of spreading the disease to humans. There were 3 outbreaks of Anthrax, 70 outbreaks of Salmonellosis (one outbreak resulted in approximately 70 cases of food poisoning amongst humans) and 3 outbreaks of Brucellosis. Two of the Brucellosis incidents affected herds where the farmer was a producer retailer of raw untreated milk, and it was necessary to arrange for the milk to be pasteurised before sale to the public until the infection on the farms had been eradicated. The Ministry of Agriculture, Fisheries and Food has a voluntary Brucellosis Eradication Scheme, but, although Devon is one of the foremost counties in getting farmers interested, I feel the scheme would be more efficacious if it were made compulsory or farmers were given more financial inducements to join it.

The Chief Medical Officer to the Ministry of Health (now the Department of Health and Social Security) in his 1967 Annual Report states that “untreated milk is unsafe milk”, but whilst pasteurisation of infected milk renders it safe, how much better it would be to have uninfected milk to start with and not rely solely upon pasteurisation to safeguard human health.

Again I wish to thank all members of the staff, and the Council for their help and co-operation during the year.

JOHN WILDMAN

*Medical Officer of Health*

June 1969

# TAVISTOCK RURAL DISTRICT COUNCIL

---

## PUBLIC HEALTH AND HOUSING COMMITTEE

The Chairman of the Committee was MR. A. A. W. BROWN with MRS. D. L. H. PINDER as Vice-Chairman, together with all other Members of the Council.

## PUBLIC HEALTH STAFF

### *Medical Officer of Health*

JOHN WILDMAN, M.R.C.S., L.R.C.P., D.P.H. (LOND.)

### *Deputy Medical Officer of Health*

MARY E. BUDDING, M.B., B.CH., B.SC., D.P.H.

### *Surveyor and Chief Public Health Inspector*

L. J. SHEPHERD, C.R.S.I., CERT. OF MEAT AND FOODS, R.S.I., M.A.P.H.I.

### *Deputy Surveyors and Public Health Inspectors*

W. E. LARGE, CERT. OF MEAT AND FOODS, R.S.H., M.A.P.H.I.

H. C. WATKIN, CERT. OF MEAT AND FOODS, R.S.H., M.A.P.H.I.

### *Additional Public Health Inspectors*

J. J. M. CLARK, CERT. OF MEAT AND FOODS, R.S.H., M.A.P.H.I.

E. G. JOHN, CERT. P.H.I.E.B.

### *Technical Assistant*

B. W. H. MARTIN, M.I.P.H.E., CERT. P.H.I.E.B.

## SECTION 'B'

### GENERAL PROVISION OF HEALTH SERVICES FOR TAVISTOCK RURAL DISTRICT

#### LABORATORY SERVICE

Laboratory facilities are provided by the Public Health Laboratory Service at Plymouth (Telephone: Plymouth 63997).

#### COUNTY COUNCIL HEALTH SERVICES

The following are some of the County Council Services under the National Health Service Act, 1946. Full details can be obtained from the County Medical Officer, Health Department, County Hall, Exeter.

##### *Ambulance Service*

The Ambulance Service in the Tavistock Rural District is radio controlled from headquarters at Plympton (Telephone: Plymouth 36414). It is operated by the St. John Ambulance Brigade under an agency agreement with the Devon County Council. Except in emergency, an ambulance should be ordered by a medical practitioner.

##### *Home Nursing, Midwifery, Health Visiting and Welfare Centres*

There are nine District Nurses and Midwives and four Health Visitors.

There are four Welfare Centres:

D.C.C. Clinic, 70 Plymouth Road, Tavistock (Telephone: Tavistock 2617)

Methodist Schoolroom, Horrabridge

Ladies' Club, Princetown

Tinhay Methodist Schoolroom, Lifton

##### *Vaccinations, Diphtheria, Whooping Cough, Tetanus and Poliomyelitis Immunisation*

Al Medical Officer at the Welfare Centres will vaccinate or immunise babies at the request of parents.

First Friday in each month: Tavistock—morning and afternoon

First Monday in each month: Horrabridge—afternoon

Second Wednesday in each month: Lifton—afternoon

Fourth Wednesday in each month: Princetown—afternoon

##### *Home and Domestic Help Service*

Applications should be made to the Local Organiser, at D.C.C. Clinic, 70 Plymouth Road, Tavistock (Telephone: Tavistock 2617).

A charge may be made for this service, in accordance with the County Council's assessment scale.

### *Mental Health*

Arrangements for mental treatment on the recommendation of a Medical Practitioner are made by the Social Workers in Mental Health, at Abbey House, Russell Street, Tavistock (Telephone: Tavistock 2253).

Help in respect of mentally sub-normal persons can be obtained by application to the County Medical Officer.

### *Chiropody Service*

A County Council Chiropodist operates a Foot Clinic at the D.D.C. Clinic, 73 Plymouth Road, Tavistock (Telephone: Tavistock 3533). Treatment is available for handicapped persons, the elderly and any expectant mother who might be in need of chiropody. Most cases are referred to the clinic by the family doctor, but there is provision for health visitors, district nurses and voluntary agencies to refer cases to the County Medical Officer.

### *Occupational Therapy*

There are two Occupational Therapists at the D.C.C. Clinic, 73 Plymouth Road, Tavistock (Telephone: Tavistock 3533).

### *Health Centres*

There are no Health Centres at present but it is hoped to build one at Yelverton in the near future.

### *Hospital Services*

The Rural District is served by the Plymouth and District Hospital Management Committee and there are hospitals at Plymouth and Tavistock.

### *General Practitioner, Medical and Dental Services*

There are thirteen General Medical Practitioners and five Dentists in the Tavistock area. The School Dental Clinic is at the D.C.C. Clinic, 70 Plymouth Road, Tavistock. (Telephone: Tavistock 2617).

## **OTHER SERVICES**

There is a Rest Room for the elderly in Duke Street, Tavistock, run by a Voluntary Committee.

There is one Welfare Home, Harewood House, Plymouth Road, Tavistock, run by the Devon County Council.

Blood Transfusion Donor Sessions at Tavistock are arranged by the B.R.C.S., Red Cross House, West Street, Tavistock.

Cytology Clinic Sessions for the early detection of cancer in women are held each month at the D.C.C. Clinic, 70 Plymouth Road, Tavistock (Telephone: Tavistock 2617).

A Meals-on-Wheels Service, run by the W.R.V.S., operates in Tavistock and adjoining areas. The meals in Tavistock are cooked at Harewood House, and in the rural areas at the helpers' own kitchens. Enquiries should be made to Tavistock 2310.

## SECTION 'C'

### SANITARY CIRCUMSTANCES OF THE AREA

#### WATER SUPPLY

The North Devon Water Board and the Plymouth Corporation Water Department both supply water to the Tavistock Rural District. The North Devon Water Board's supplies are at Prewley, near Okehampton and at Kilworthy, Tavistock. The Plymouth Corporation supply comes from various sources at Princetown, Dousland and Burrator.

The Chief Engineer (South) to the North Devon Water Board has submitted the following report for inclusion in this report:—

"The Board's treatment works at Prewley has consistently coped with supply demands to the Tavistock area, and in addition a wholesome supply has been received at all times from Kilworthy treatment works which supplements the supply to the Parish of Tavistock.

Mains extensions have been carried out where required and water supply schemes to serve housing developments have been undertaken.

- . The distribution system has been maintained in good order with the supply being un-interrupted. Satisfactory chemical and bacteriological samples taken at regular intervals have been obtained".

In addition to the regular samples of water taken by the Water Authorities the department took 17 samples for bacteriological examination from private water supplies, of these fifteen received satisfactory reports. In the other two cases the occupiers of the properties concerned were advised on precautionary and remedial measures, and this action was followed up by further sampling which proved to be satisfactory.

**Fluoride Content**

The fluoride content of the water is less than 0.10 parts per million.

DETAILS OF PROPERTIES SUPPLIED BY THE CITY OF PLYMOUTH WATER  
DEPARTMENT IN THE TAVISTOCK RURAL DISTRICT AT 31ST DECEMBER, 1968

<i>Parish</i>	<i>Number of Dwellings</i>	<i>Population Supplied (estimated)</i>
BUCKLAND MONACHORUM .	858	2757
HORRABRIDGE (part) . .	300	1050
LYDFORD FOREST . . .	110	385 + 600 (Prison)
MEAVY . . .	159	530
SHEEPSTOR . . .	13	53
WALKHAMPTON . . .	146	646

No properties are supplied by standpipes fixed on public mains.

#### Fluoride Content

Samples of the fluoride content of the water has been found to contain between 0·019 and 0·062 parts per million.

#### SEWERAGE AND SEWAGE DISPOSAL

The new sewage disposal works for Tavistock at Crowndale were almost fully operational by the end of the year. It is hoped that this scheme will be completed early in 1969.

Work is proceeding on the new sewage disposal works for Walkhampton and these works should be taken over by the Council in 1969.

Despite the Government's economic measures, work has continued in the preparation of plans for proposed sewage disposal works, particularly for Lewdown, Lifton and the Harrowbeer area of Yelverton, the scheme for Lifton being ultimately postponed due to the economic measures. It is hoped that the Council's persistence in pressing the Ministry will be successful, and that the Harrowbeer and Lewdown schemes will be commenced during 1969.

Maintenance and repairs to the sewage disposal works has been carried out by the Council's direct labour staff, and in addition work has been carried out by specialist de-sludging contractors.

Towards the end of the year delivery was taken of a new tractor and purposes designed trailer as authorised by the Council, and regular use is being made of this vehicle for the removal of sewage sludge. This problem is becoming ever increasing and it is anticipated that, with the provision of the larger tractor and an additional trailer, together with adequate labour, full time sludge removal can be effected.

There have been several obstructions to the Council's sewers throughout the district, all of which have been cleared within a few hours of notification,

some instances necessitating overtime. In this context it is felt that if the Department was notified earlier in the working day of the majority of cases of choked sewers, the problem of overtime working would not arise, I must draw attention yet again to the large articles that are being deposited in the sewers, particularly non-rotting items, *e.g.* Polythene during the winter months can be a very hazardous operation. I feel that and in view of the introduction of British Standard Time, overtime working etc., which are the main cause of obstructions, and would appeal for the general public to take much greater care regarding drainage arrangements.

## REFUSE COLLECTION

Routine refuse collection has been carried out according to schedule by the direct labour staff, and additional bulk refuse collection, as directed by the Council, has been incorporated very successfully. Although this causes a considerable amount of work it is felt that this extra load can be justified, and the collection should be more frequent in order to cut down the possibility of these bulky items being deposited at random on open land, particularly moorland.

It is hoped to replace the "Karrier" Refuse Vehicle during 1969 with a modern vehicle having a much greater cubic capacity. This will obviate the use of the open lorry.

The refuse tip at Peter Tavy has been levelled, the fencing removed and the land returned to open moorland. The refuse tip at Cotts, Bere Alston, was closed temporarily during the summer months. The Council have resolved that the refuse tip at Cotts shall be closed for household refuse and shall be used purely for the disposal of builders' rubble and other innocuous materials. Considerable work was carried out at the refuse tip at Coryton including the re-surfacing of the entrance road. Following the granting of planning consent the refuse tip at Crowndale, Tavistock, was extended. This involved the laying of a large culverted drain to remove surplus water from the new tip area.

In view of the increased amount of building which is proceeding in the Dousland area, it is hoped that, when delivery is taken of a new refuse vehicle, collection in this area can be increased from fortnightly to weekly.

## PUBLIC CONVENIENCES

Preparation of plans are proceeding for proposed Public Conveniences at Postbridge, Brentor, Lifton, and the staging post at The Ace of Clubs, Lewdown, and also the modernisation of the defunct conveniences at Milton Abbot. It is hoped that the conveniences proposed at Postbridge and Lewdown will be operational during 1969. Vandalism has not been so great as in previous years apart from one act in Tavistock where the

convenience was set on fire necessitating renewal of fittings and complete re-decoration

Supervision of the cleansing of the conveniences was increased during the year resulting in infrequent complaints which is very gratifying.

## **SWIMMING POOL**

Regular visits were made to check and maintain the treatment equipment, and regular tests carried out to check pH and free chlorine. In addition eight bacteriological samples were taken from the swimming pool, one of which was unsatisfactory due to breakdown of the chlorination plant.

## **INFECTIOUS DISEASE ON FARMS**

There have been seven notifications of outbreaks of *Salmonella Dublin* amongst farm animals in the district and two outbreaks of *Brucellosis* amongst dairy herds.

The *Salmonella* infections cause an enteritis in cattle sometimes resulting in death of the animal concerned.

*Brucellosis* contaminates the milk supply and if raw untreated milk is drunk by susceptible persons Undulant Fever may result.

In every case the Department has advised the farmer regarding personal hygiene as these diseases are transmissible to human beings. In the two outbreaks of *Brucellosis* arrangements were made to pasteurise the milk to render it safe for human consumption.

## PUBLIC HEALTH INSPECTION OF THE DISTRICT

The following table shows the number of visits in connection with various routine work in addition to maintenance work shown under the various sections:—

## SECTION 'D'

### HOUSING

Thirteen council houses were finished during the year and at 31st December, 1968 there were 32 houses in course of construction. It is hoped that authority will be given for the go-ahead of the estate proposed at Bere Alston shortly.

Private enterprise building showed a considerable increase over last year, there being 218 houses completed compared with 80 in 1967. At the 31st December, 1968 there were 113 in course of construction.

Three applications for Discretionary Grants were approved by the Council, the aggregate being £965. One Discretionary Grant was paid amounting to £200.

I am pleased to report that applications for Standard Grant increased considerably, 56 applications being approved. 39 Standard Grants were paid totalling £5,326 towards the cost of the provision of 35 baths, 33 wash-hand basins, 27 hot water supplies at three points, 12 hot water supplies at one or two points, 27 water closets and 23 food stores. Additional grant was paid towards the provision of 11 bathrooms, one piped water supply for the first time and 11 septic tanks.

Five dwellings were represented as unfit for human habitation under the provisions of the Housing Act, 1957; in two cases Demolition Orders were made and in the other three Undertakings were accepted, one of which was subsequently cancelled.

The Council continued to implement the Small Dwellings Acquisition Acts, 1899-1923, and Section 43 of the Housing (Financial Provisions) Act, 1958, as amended, 23 applications being approved, 3 of which were subsequently withdrawn.

## SECTION 'E'

### INSPECTION AND SUPERVISION OF FOOD

During the year 248 inspections of food premises were made. In instances where contraventions were found the proprietors of the premises concerned were requested to take remedial measures and further visits were made.

In addition a large number of inspections were made of the food stalls at the Goose Fair, and it was found that this year a great improvement had taken place in the facilities afforded to the stalls, which was very gratifying.

The principal food premises within the District are:—

Canteens	...	...	...	28
Fishmongers	...	...	...	4
Butchers	...	...	...	31
Dairies	...	...	...	14
General Stores	...	...	...	110
Bakehouses	...	...	...	7
Hotels and Guest Houses	...	...	...	57
Public Houses	...	...	...	44
Restaurants	...	...	...	36
Manufacturing Premises	...	...	...	7

### MEAT INSPECTION

There are 4 Licensed Slaughterhouses in the District and inspection of carcases killed continues at 100%.

A total of 17,376 animals was inspected at the 4 slaughterhouses involving 582 visits to the slaughterhouses.

Full details of the animals killed and inspected and the carcases and parts of organs condemned are shown in the table which follows:—

CARCASES AND OFFAL INSPECTED AND CONDEMNED IN WHOLE OR IN PART

	<i>Cattle excluding Cows</i>	<i>Cows</i>	<i>Calves</i>	<i>Sheep and Lambs</i>	<i>Pigs</i>
